

# WINDY ARGUMENTS ARE TO BE MADE IN MADISON DURING THE NEXT WEEK

## Lenroot's Supporters Will Bitterly Oppose The Proposed Early Adjournment.

[SPECIAL TO THE GAZETTE.]  
Madison, Wis., Dec. 9.—The first week of the special session of the Wisconsin legislature passed without a single measure having been completely enacted, and the determination of the senate and a large number of members of the assembly is so strong for adjournment next Saturday that it is likely that the end will be forced by that time. This will crowd all the real work of the legislature into two days, practically. In order to adjourn Saturday it is necessary to close real business Wednesday noon, the remainder of the week being required by law for messages between the two branches and to and from the governor. The legislature meets next on Monday night, when many members will be absent, and little business can be transacted. So there remains only Tuesday and up to noon of Wednesday for the formation and consideration of the vasty important measures urged in the governor's message. The possibility remains that the assembly, being controlled by a large La Follette majority, will stave off the fixing of final adjournment and give more time for the work for which the special session was summoned. It is said that the leaders will not consent to going home until the important matters have been discussed and some lengthy speeches made on those bills that are doomed to die in the senate. If these measures are allowed to die without protest they can not serve as political capital for Speaker Lenroot's gubernatorial campaign, and that it is one

# FLATLY REFUSE ADMIRALS ORDER TO GO TO FORTRESS

## Marines In St. Petersburg Are Very Frank In Their Statements—Other Mutiny Of Soldiers.

[Special by Scripps-McRae.]  
St. Petersburg, Dec. 9.—The marines and sailors here have mutinied and refuse to go to Kronstadt. The spokesman has openly defied Admiral Niedermiller. The mutineers took refuge in the barracks, which are surrounded by troops. The troops at Shusselburg fortress demand the immediate release of all political prisoners. Shusselburg is on an island twenty miles east of this city and has long been the torture house of all political prisoners.  
General Maximovitch, the former governor general of Warsaw, has succeeded Sakharoff in the efforts to crush the rebellion at Saratoff. His first order to the Cossacks was: "Don't use sabres on the malcontents. Shoot whenever you meet the least resistance. Show the rebel dogs you are not economical with your cartridges. The more political malcontents you kill the higher will the Czar value your services. Take care your actions create a good impression with the government." Fifty thousand armed peasants are in the district commanded by Maximovitch.  
It is understood the telegraphers who are striking at Vladikavkaz have selected a man to come to St. Petersburg to kill Durnovo, the minister of the interior, and Sevastianoff, superintendent of the Posts telegraphs.

# MASSACHUSETTS TOWN IN HANDS OF BOLD ROBBERS

## Take Two Policemen, Lock Them Up, And Then Loot The Office Of Water Company.

[Special by Scripps-McRae.]  
Reading, Mass., Dec. 9.—Eight robbers appeared in the streets of this town early this morning, captured Policemen Manning and Orr, took away their weapons, handcuffed them and locked them both in jail, where they left a small guard. They then went to the office of the water works company opposite and smashed the door, blew open the safe with nitroglycerin and stole a small sum of money belonging to the company and two hundred dollars belonging to the treasurer. One citizen, who was awakened, fired one shot as the gang was leaving town. There is no clue.

## RUSSIA THREATENED BY FINANCIAL RUIN

Present Panic Disproportionate to Real Conditions, But Outlook Is Unpromising.

[SPECIAL TO THE GAZETTE.]  
St. Petersburg, Dec. 9.—Greater than the strikes, than the political upheaval, than the intense opposition of the various factions to the present governmental regime, is the financial ruin which threatens Russia. This bogey, which has been threatening to rise like a frightful specter for the past several months, seems at last to be taking on a tangible form and the present panic is assuming a dangerous as well as sensational form. The extreme press organs have frightened the lower middle class investors, who are making a run on the savings banks. The outflow of gold continues and the influx is very insignificant by comparison. The only remedy is ready money. The present panic is wholly disproportionate to the real condition of things, although the outlook is distinctly unpromising.

## TAKING STEPS FOR RAISING THE LOAN

Western Shoe Company Would Increase Its Present Capacity and Asks for a Loan.

At a meeting of prominent business men, held in George Sutherland's office last evening, plans were discussed for the raising of a twenty-thousand-dollar loan for the Western Shoe Company in order that the concern might thus be enabled to increase their output of shoes and otherwise advance their business. Several plans were discussed and it is probable that means will be found to raise the sum required upon good security offered by the company. The Western Shoe company is ready for large-scale increasing its output with a small working capital, as it has machinery enough to double the present output with ease. It is a growing industry and doubtless the plans suggested last evening will be successful. There has been some talk of the factory's moving to Milton Junction, but if the funds can be raised in Janesville they will remain here.

## SOCKER LEAGUE IN EASTERN COLLEGES

Was Organized in New York City Today—Is Another Advance Against Football.

[SPECIAL TO THE GAZETTE.]  
New York, Dec. 9.—With the cry for football reform, public attention is being attracted to the association game, which has made giant strides in public favor during the past few months. The gain of public favor is due also to the recent visit of the English soccer team, which played games with several of the leading American eleven. The first real fruits of the Englishmen's visit became apparent today, however, in the formation of a new intercollegiate association football league. It is claimed that no better substitute for football can be found than the association game. It is stripped of every semblance of brutality and combines all the elements of science, speed and expertness.

# NEGROES HISS THE PROFESSOR

## Trouble In Howard University Leads To An Open Revolt Of Students.

## THEY MARCH OUT OF THE CHAPEL

### Held An Indignation Meeting On The Campus In Which The Educator Was Vigorously Denounced By All.

Washington, Dec. 9.—The 400 negro students of Howard university, during exercises in the chapel Friday, hissed and hissed Prof. John Gordon, president of the university.  
The trouble between the students and the president was started by a statement that Prof. Gordon was prejudiced against the negro race. The students say he has been under investigation by the board of trustees and had stated to them that the students approved of him and his administration. It was to disprove this that the demonstration was made.  
The students assembled in chapel at noon for the usual religious exercises. When President Gordon appeared one of the students in the front row of seats arose and yelled:  
"Down with Gordon!"  
Then all the students jumped to their feet and started a chorus of groans, hisses and cat calls. Hats and coats were waved in the air.  
Finally the students marched out of church and held an indignation meeting, during which President Gordon was vigorously denounced. The students did not return to their studies and practically are on strike.  
A petition is alleged to have been signed by colored bishops and clergymen in all parts of the country declaring that President Gordon is not a fit man to preside over the university and demanding his resignation.  
Dr. Gordon said the demonstration was made by a small body of the students.  
"We are conducting an investigation," he continued, "and will deal with the matter as the situation demands. The striking students belonged to what is known as the college department."

Say Gordon Is Prejudiced.  
The affair at Howard university has been brewing for months. Alumni of the institution have been working actively for a year to get the board of trustees, composed of white business and professional men, to remove Dr. Gordon, on the grounds that he was prejudiced against the colored race, and totally unfit for the position he holds. Petitions have been presented giving, in detail the reasons why Dr. Gordon's usefulness to the colored institution has come to an end.  
A reproduction from an article in the Christian Recorder, the official organ of the African Methodist Episcopal church, which has been presented in support of the argument for the removal of Dr. Gordon, is characteristic of the other allegations. The article reviews the situation. In closing it reads:  
"We heartily welcome our white brethren among us as workers who come in the spirit of the Lord Jesus Christ. We honor and reverence them, but there is no room in our schools and colleges for the 'Lily White' educator of the Gordon type, who insults the manhood of the race. Dr. Gordon should go at once."

Negroes Seek to Control.  
The above was first published last October and has been industriously circulated since. The Howard university was established soon after the close of the civil war. It has been in the hands of white educators and has been maintained principally by contributions from white people. The present quarrel is, said, really to be due to the desire of the colored people to obtain control, and their idea is that first of all there should be a negro at the head of the school.  
The affair has brought the situation to a head and it is now for the board of trustees to decide whether or not Dr. Gordon will remain at the head of the school.

## VERY GOOD YEAR FOR INTERURBAN

WISCONSIN RECEIPTS HAVE IN-  
CREASED NEARLY \$4,000.

AGGREGATE IS \$55,841.55

Janesville's Share in the Two Per  
Cent License Fee, Amounts to  
\$370.83—Report Sub-  
mitted Today.

Gross receipts of the Rockford, Beloit & Janesville Interurban Ry. in Wisconsin for the year ending Nov. 30 amounted to \$55,841.55, according to the report submitted to the city treasurer by Auditor E. B. Gibson. This is an increase of \$3,852.80 over the previous twelve months. The earnings subject to a license fee of two per cent, under the Wisconsin statutes of 1893, amount to \$26,916.80, the fee being \$538.33; and the earnings subject to a 2 1/2 per cent fee amount to \$28,924.75, the fee being \$723.12. There is therefore the total sum of \$1,261.45 to be divided among the cities of Janesville and Beloit and the townships of Rock and Beloit.

**Trackage in Feet**  
In proportion to the number of feet of track within their limits the cities receive three times as much as the towns in the division of the fees. From the state line to the Beloit city limits there are 11,127 feet of track; from the Beloit northern limits to the Rock township line there are 23,154 feet; from the Rock township line to the Janesville limits, 30,576 feet; and in the city of Janesville 12,000 feet.

**How Cash is Divided**  
The city of Janesville's percentage is over 29 per cent and the city of Beloit's nearly 25 per cent. Janesville gets \$370.83—an increase of \$68.35 over last year. Beloit gets \$341.29; the town of Rock, \$312.61; the town of Beloit, \$236.72. Taken all in all this seems to have been a prosperous year for the interurban and the territory along its route have reason to rejoice in its prosperity.

## SAME OLD GAME IS WORKED UP AT \$00.

Mysterious Relative in Spain Writes.  
"Soo" Man Letter for His  
Aid.

That a prominent local business man was duped recently by a mysterious relative in Spain who had untold wealth but unfortunately was in prison and could not use it but who had a daughter in a convent who could secure the money if the dear American relative helped him, is more than a rumor about the city. Strange, to say the whole game almost identical with the plot worked to separate the Janesville man from his money was tried on a Sault Ste. Marie man who shows how the game is worked though not always as successfully as it is said it was in Janesville.

Sault Ste. Marie, Mich., Dec. 4.—William Malmberg has received a letter from "Manuel" Castro Malmberg, an alleged relative who says he is in prison in Madrid and who wants him to care for his 18 year old daughter. He says he will give him \$20,000 now in a New York bank for caring for the girl. The girl, he says, is in a boarding school but does not tell where. He instructs the local man to write to Castro Corres, a trusted friend, who will not let the authorities know of the transaction. The letter was written in Spain without doubt but friends believe it to be a scheme to swindle Malmberg. The latter says he has relatives in Spain but does not know the writer. The letter is said to be one of many written to Americans. Many of them when investigated, prove to be schemes to defraud.

### CITY ENGINEER ON THE SEWER CLAIMS

Says All Obstructions Were Provided  
for in General Specifications, and  
It Was Not Necessary to  
Chart Them.

City Engineer C. V. Kerch, in a conversation this morning regarding the \$13,000 claims against the city for extra sewer work put forward by Contractors Hanrahan & Lindquist, emphatically stated that the grades of the sewers were definitely marked in the profiles and were followed in the construction. "It occasionally happened," he said, "that the streets were not according to grade and the contractors had to excavate through a few extra inches of earth where there were bumps. As far as the tracks are concerned it was definitely stated in the contract that when there were such in the line of any sewer and when it became necessary to remove them temporarily during the construction of the same, such removal should be done by the contractor without additional compensation.

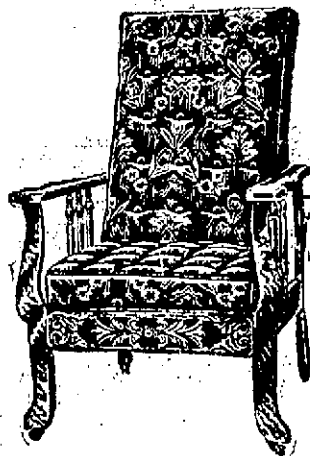

"It is not true that it is either necessary or customary to indicate all these obstructions in the profiles. They were provided for in general specifications such as the one I have cited. It was stipulated that where there was rock sufficiently hard to require blasting for its removal, the same should be paid for by the cubic yard. In all such instances it was measured and paid for. In the claims they put forward now they extend the provision to cover loose shell, rock mixed with gravel which required no blasting and was easier, perhaps, to work in than sand. The specifications call upon the contractor to bear the expense of meeting all unforeseen difficulties, such as the old fire cistern on Madison street, in the first ward. They also provide that no charge for extra work shall be made unless the same is ordered in writing by the engineer, approved by the sewerage committee, and a price therefor agreed upon previous to its commencement.

"Whenever any extra work was done under these conditions it was paid for. It is true that certain notices were served on the mayor at various times, but they didn't include any such extensive claims as are now set forth and they never came to the attention of the committee. The city attorney has held that the city is not responsible for any one of these claims, though in equity there appears to be a disposition to allow a few of the small ones. It is the contractor's business to look over the ground before he takes the contract. The city could not chart all the water and gas pipes for him, even were it so disposed, as there is no complete record kept of them."

No "Bulge" For Them: Notice was served on the various saloon proprietors today not to sell intoxicating beverages of any kind to Joseph Peters, John Holleran, and John Donagan. The notices were signed by the city marshal.

## = FORTY YEARS AGO =

Janesville Daily Gazette, Saturday, December 9, 1895.—All Souls' Church.—At the meeting of the trustees of the Rev. Mr. Farrington's society, held at the office of Judge A. P. Prichard on Monday evening last, it was unanimously resolved that their new church edifice now near completion at the corner of Bluff and Court streets, should hereafter be known as "All Souls' Church." The name is significant and appropriate.

A Complete Bank Vault.—The Rock County National Bank has been making a very important addition to its bank vault, which now makes it one of the most complete and secure things of its kind in the country. In order, however, that the reader may have some idea of the strength of the vault, we give its make-up. The foundation of it is laid four feet under the water, and is built up of solid masonry, the floor being composed of one entire stone of flat variety, fourteen inches thick and weighing twelve tons. The sides are made of the same material, and at the corners where the stones are joined, are dovetailed and bolted together in the strongest possible manner. Out side of the vault walls are ordinary brick walls sixteen inches in thickness. The vault door is of Herring's burglar proof, crystallized iron, and lock being Cover's combination. Inside the vault is one of Lillie's chilled iron safes, with walls two inches thick, which are entirely impervious to a drill. A duo-decagon combination lock fastens the door. Within the safe is the new additional security

two inches thick, having on it a Eureka combination lock. There is no keyhole to the lock of either vault, safe or chest, and consequently no chance to blow open with powder. So far as stone, iron and steel can make treasures safe, that in the Rock County National is evidently out of harm's way.

## ..COMING ATTRACTIONS..

Otis Skinner, who has delighted local playgoers with so many beautifully interpreted romantic roles, is always a welcome artist, and double interest attaches to his forth-coming re-advent in a highly successful play by Clyde Fitch, "His Grace de Grammont," in which sparkling romantic comedy he has scored such a fresh triumph, this season, will be the notable event at the Myers Grand on Monday evening next. As that dashing gallant, the Count de Grammont, in this picturesque drama of love and intrigue at the gay court of Charles the Second, Mr. Skinner would seem to have splendid opportunity for his recognized grace and mastery of romantic art. The role is one of the most fascinating in its real historical verity. The actual de Grammont was the very personification of safety, grace and gallantry. In this vivacious Fitch play, with its background of rare beauty-of court splendor, fashion and elegance in rich profusion, of dress and scene—the high spirited, Chevalier is shown at the height of his valor in perilous out-

onism to the profligate King Charles in one of his amours. The play is full of intrigue; the jealous Lady Castlemaine, the King's celebrated mistress, seeking to outwit her capricious royal lover and aiding de Grammont in the existing events that grow out of many cross plottings. Mr. Skinner has given the production the most expensive mounting ever made by him of a play, and the colorful charm and luxuriousness of the Stuart restoration reign is presented in a series of stage pictures that are asserted to be an artistic revelation of beauty in costume and scene. The playant character comedy and witty dialogue of Fitch, the love romance, the exciting episodes of intrigue and soldiery in those days of cavaliers and coquette—all promise a full evening's footlight enjoyment, especially as the cast includes among others, such well known artists as Arthur Forrest (who will be King Charles), Laura Hope Crews (who will be Miss Hamilton), Helen Ware, Jennie Eustace, Marion Abbott, Robert Peyton Carter and Charles Welles.

Ducks, dressed—10c to 12c.

Turkeys, dressed—16 to 18c.

Turkeys, live—15 to 16c.

Vent calves, 5 to 6c.

While wheat and flour remain firm throughout the wheat centers, it has little effect upon the local flour market.

Each retail dealer has his own idea as to what he will or can sell for. Corn continues firm with slight fluctuations either way from day to day.

There is good demand for corn in the local market at \$3 per ton, a load selling occasionally for \$8.25 to \$8.50.

While there is a good local demand for oats, the quality generally is inferior to those that are shipped in from other localities, hence dealers and consumers find it to their

advantage to give the latter the preference by two to three cents per bushel. Live and dressed poultry is in good demand and it is promptly met at above quotations. When dressed turkeys sell for 18 to 20c per pound retail consumers find chickens, ducks and geese very satisfactory eating.

## OUR SATURDAY NIGHT.

"There is a time when the pulse lies low in the bosom and beats low in the veins; when the spirit sleeps the sleep which apparently knows no waking; sleeps in its home of clay, and the windows are shut; the doors hung with the invisible crape of melancholy; when we wish the golden sunshine pitchy darkness, and wish to fancy clouds where no clouds be. What shall raise the spirit? What shall make the heart beat music again and the pulses throb through all the myriad-throated halls in the house of life? What shall make the sun kiss the eastern hills again for us with all his old awakening glances, and the night overflow with moonlight, love and flowers?"

"There is only one stimulant that never intoxicates—Duty. Duty puts a clear sky over every man, into which the skyward of happiness always goes singing."

George D. Prentice expresses this choice sentiment in regard to duty. The little, homely word of four letters which zigzags the pathway of life, and meets us at every turn of the road.

No word in the English language is more distasteful, yet no word is more significant. It confronts us in the morning, stays by us during the day, and haunts our dreams at night.

It is the motive power of action, the generator of ambition, and the balance wheel of energy. It holds the craft steady to its course and pilots into the harbor of destiny.

The old injunction, which greeted the first man, when expelled from the Garden of Eden, after living a life of ease and idleness, "by the sweat of thy brow shalt thou earn bread"—has been handed down to succeeding generations, and the fact has ever since been recognized that sweat and toil are necessary to existence.

Just what the future of humanity might have been, but for the weakness of Adam, has ever been a matter of speculation, but work has so long been a necessity that conditions are excepted without complaint.

In this land of freedom, where thought, speech, and action are largely question of volition, it is easy to ignore obligations and place a responsibility upon the impersonal they, forgetful of the fact that society and government is made up of individual units and that every citizen is, in duty bound to fulfill his individual mission.

The duties of citizenship are easily ignored, because so lightly regarded, and a multitude of people, who profess goodness, shirk responsibility, and complain about conditions which frequently exist because of their neglect.

Society becomes corrupt and moral sentiment is at low ebb not because a majority of people do not believe in right living, but because this majority is indifferent.

The government of a city is weak and inefficient, and frequently dishonest, not because of a shortage of good men, but because the good men find it easier to shirk responsibility, than to faithfully perform the duties of good citizenship.

The pulpit is remiss in duty along this line, because theology, the supernatural, and preparation for life to come is regarded more important than the every day life of here and now.

The world is not suffering for theology, and the supernatural is so unreal that it has opened up a field of speculation which has added more brains than any other topic ever discussed.

The vein of insanity, which is said to infect humanity, responds to the touch of religious fervor, and frequently unbalances the mind. Zion City, and the following which it represents, is an object lesson. Common sense is sacrificed to insane zeal, and a deluded following is the result.

Every pulpit in the land should be dedicated to the duties of good citizenship, and the importance of living "that life that is" should be so thoroughly exploited and expressed, that the most astute hearer would be impressed with its sublime importance.

The press is also derelict in duty, along this line, and while the secular press is not expected to deal with moral and religious questions, to any

large extent, yet the fact is not always recognized that the duties of good citizenship are more important than politics, and many other questions which command attention.

To the individual, the call of duty is the watchword which holds men and women to their work. The boy who comes through the home and out into life impressed with the fact that obedience is a blessing, has learned his first great lesson as a law respecting and law abiding citizen.

Duty to the child, prompted the mother to hold him steady, during the years of unaccountability, and duty to society and the government which sheltered him, developed manhood and good citizenship.

Love is said to be the corner stone, which enters into the foundation on which the home is built, and which becomes a paradise when completed, but duty enters into the plan, and brings joy to the sacrifices of every day experience.

The wife and mother recognizes it as she goes singing about her humble tasks, and the husband and father, in his daily toil, is inspired by the same obligation.

The sacred vows which made the home possible, included both love and duty, and the two are inseparable in every home worthy of the name.

Duty comes in disguise to the heart crushed with sorrow, as the greatest blessing within the gift of an all-wise providence, and the heavy task is taken up to find in its performing comfort which could come from no other source.

It is said that man's first duty is to his God and himself. If the obligation ended here the outlook might not seem encouraging, but the fact remains that a man who is absolutely true to himself and his God, is as near perfection as it is possible for humanity to attain. In this condition of heart and mind he is at peace with himself and all mankind.

## PRESS COMMENT.

**Terrible Hour Approaches.**  
Chicago Tribune: "Wait, if you please, until Mr. La Follette's pompadour rises to confront the senatorial corruptionists."

**Near the Tipping Point.**  
Sheboygan Journal: "It is an easy thing to get drunk with power, and Governor La Follette seems dangerously near the tipping point."

**Anyway, It Ends the Game.**  
Green Bay Gazette: "The Janesville Gazette calls the special session of the legislature the ninth inning. It looks more like a tenth."

**Tough on Root.**  
Wausau Record: "After that decision in the Isle of Pines case it is needless for Secretary Root to look for support in Marinette. Fond du Lac or Watertown."

**Will Need One Another.**  
Oshkosh Northwestern: "Unfortunately the governor will be compelled to leave his organ and the machine behind. But they will need each other to keep from getting lonesome after the governor is gone."

**Cheerfulness of "Uncle Joe."**  
Chicago Record-Herald: "Uncle

Joe" Cannon says the national House of Representatives never takes orders from political bosses. "Uncle Joe's" cheerfulness is one thing about him that can always be safely recommended.

**Uncle Ike on Warpath.**  
Exchange: "The Milwaukee News intimates that Uncle Ike Stephenson must be loaded down with gold bricks by this time. Yes, and it looks as if he had put one of those same bricks in a sock and started out for revenge."

**A Superb Generalizer.**  
Madison Journal: Governor La Follette is superb in generalizations; and where he has had practical experience to look after the details for him, as in the case of the railroad bill and kindred measures, he has floated through pretty well. But it was different with the primary election measures. That in all the details had to come from him, and that the progeny is shy a limb or two is not surprising.

**Inside History—Manufactured!**  
Beloit News: When the bulletin, announcing the governor's acceptance of the senatorship reached the offices of the esteemed Janesville Gazette and Milwaukee Sentinel yesterday, certain columns of prepared editorial abuse were marked "dead" amid disappointment, depression and dejection.

**La Follette Men Too?**  
Delavan Republican: "La Follette men in Janesville are in almost open revolt against Congressman Cooper for his failure to settle the Beloit postoffice fight, and the appointment of Valentine at Janesville. It is said that he has ignored the wishes of the younger men who have been his best supporters, and they are open in their denunciation of his methods."

**Timely Word That Wasn't Spoken.**  
Marquette Eagle-Star: "As to the supplement to the message, in which Governor La Follette expresses his determination to go to the senate during or at the close of the present session, it was the only declaration he could consistently make. The Marinette friends of his chief supporter in the past may wish his decision had been different and that their honored citizen might have succeeded him at Washington, but the time when such a consummation should have taken place was last winter, when a word from the governor would have made it possible. Having failed to speak that word and claimed the election to the senate for himself, his recent decision to accept the trust is proper though not timely, as he should have made it long ago."

**Lord Rothschild of London** has been appointed a director of the Grand Trunk railway to fill the vacancy caused by the death of L. J. Sargeant, former general manager. ### ANTHONY HOPE

Anthony Hope, the author of "The Prisoner of Zenda," and other charming tales, has just completed a new volume entitled "A Servant of the Public." The essential questions that present themselves to the reader are: Who was Ora Piment, what she was and why she was who and what she was? It is a study in human nature, a study that takes a London setting with an actress, a briefcase, a barrister, a daughter of a rich manufacturer, a scheming widow, as principals; a worthless husband of the actress, her stage manager, a human shark of a playwright and others as lay figures. The story centers about Ora Piment, the actress, and the briefcase barrister. It is Ora Piment's whims and caprices that show the quality of the story with the occasional reflections of the designing widow and daughter of the rich manufacturer. The briefcase barrister plays the usual fool. He loves Ora madly, sacrifices wealth and position for her love and his sense of duty, and in return is rewarded with seeing charming Ora, the mysterious Ora, the captivating Ora, marry her theatrical manager because she does not understand her own soul and being. The briefcase barrister is a study in himself. He is a character not often found in everyday life, yet so good, so simple and so many that his sorrow, if it is sorrow, his joys, all charm the reader. Mr. Hope has taken a new vein for his writings in this volume. In some ways it is superior to his other writings, but not so pleasing to those who have come to class him with a certain category of readings. The book comes from the press of Frederick A. Stokes & Company of New York and is delightfully printed and bound. The story is one of the private life and emotions of an actress. It shows how she seemed to her intimates and to those who saw only the glitter of the footlights. It has no real moral—no real ending. It leaves the barrister in an indefinite position with all the other characters well placed. It goes from the little inn at the English wayside to the crowded ballroom of a swell London function. For its reading and interesting qualities it needs no recommendations, as Anthony Hope's name is a guarantee far better than the word of a mere hired book-reviewer.

## HOUSEHOLD CARES

Tax the Women of Janesville the Same as Elsewhere.

Hard to attend to household duties with a constantly aching back.

A woman should not have a bad back.

And she wouldn't if the kidneys were well.

Doan's Kidney Pills make well kidneys.

Here is a Janesville woman who endorses this claim:

Mrs. Annie Finnegan, of 308 South River street, Janesville, Wis., says: "I was almost helpless with pains in the small of my back and general physical weakness due to kidney trouble. I could not sleep and get up straight again without taking hold of something, and finally I got so bad that I could not attend to my household work. About this time my attention was called to Doan's Kidney Pills and I got a box at the People's Drug company. I used them and they cured me. I consider Doan's Kidney Pills a wonderful cure for backache and kidney troubles."

### Mothers! Retain Your Youthful Figures.

To be beautiful is to be loved by all. If there lives the woman who is indifferent to this she is yet to be found. Yet from time immemorial society has recognized what they thought to be a detriment in the way of such a realization. The bearing of children has meant to them the marbling of physical beauty of figure, without which beauty of face would be of little account. Nothing could be more remote from truth than this; childbirth is purely a natural phenomenon, accompanied by pain, to be sure, but if properly managed no more harmful in its effects upon the human form divine than any other natural function.

### MOTHER'S FRIEND

is essential in the proper management of every case of labor; it relaxes and softens the abdominal muscles, thereby enabling them to sustain the stretching that they must undergo, and from this very fact it facilitates their return to normal proportions after childbirth, and it is obvious that pain must be greatly lessened from this very reason.

It is a liniment, it is harmless, it is potent, it is priceless in its results, it is Mother's Friend. \$1.00 per bottle at drug stores. Our book of priceless value sent free to all women.

### GREAT BARGAIN FOR THE RIGHT MAN

### A Fine, Large Stock and Dairy Farm in Webster County, Missouri,

150 miles south of St. Louis, where the winter season for feeding stock never exceeds eight weeks, and as a rule about six weeks is the limit of anything that would be called cold weather in Wisconsin. Climate and water could not be better. A great fruit and poultry country. In fact anything can be produced there that can be anywhere. Help is cheap and the average price per month for good men is from \$16 to \$18 per month with board, and \$1.00 to \$1.25 per day without board. The great

point in the argument is, you can get just as much for your product there as you can here, at about two-thirds of the cost of same to produce, or less. Good churches and schools, also good society, and as a rule honest people.

This farm is located 8 miles from a good town on the Frisco R.R., between St. Louis and Springfield, Mo., and there is a store and postoffice about one mile from the farm. This property is owned by a man of 84 years of age, who wants to sell and move to town—the reason for selling. The farm consists of 600 acres; 400 in cultivation, 200 in pasture and timber. Two small spring creeks cross the land, making fine water for stock. The land is some rolling, but not hilly. The buildings are: one 6-room house with cellar and summer kitchen of stone 18x20; 4 tenant houses, 1 barn 60x70 for horses and mules, 1 new barn 114x60 with cement floors, stalls for 34 head of stock; stone granary and hen house 16x25; stone wood house 18x20; 1 pair of 4 ton scales. Personal property: 1 pair of mules worth \$400, 2 pair of horses worth \$500, 130 head of cattle—84 of these are fine milk cows—balance young stock of all kinds; 1 manure spreader, 2 cultivators—new, 2 wagons, 1 survey, 1 disk harrow, 1 smoothing harrow, 1 6-horse power gasoline engine, 1 milk separator—capacity 850 lbs. per hour; 1 80-gallon churn with shafting, 2 mowers, 1 rake, 1 4-foot grindstone, 1 blacksmith forge and anvil, 1 Duplex corn and cob mill for feed grinding. All of the above personal property goes with farm at \$40 per acre, if sold soon; or you can buy the farm without stock and tools, at a price less the value of stock and tools.

I can also sell you smaller farms, of any size, if wanted. I have a nice 373 acre farm at \$22.50 per acre.

Prices range on improved farms all the way from \$15 to \$80 per acre for small farms. About \$20 to \$30 buys a good place. Let me hear from you. Terms—one-half cash, balance time. Address

### A PLUME-TRIMMED TOQUE IN VELVET AND ERMINE

With ermine becoming scarcer in the market every week, the best milliners are taking to supplementing it largely with velvet. The all-white hat for formal wear—weddings and such, during daylight and for general evening purposes—is still in the highest esteem. One of those round turbans that are finding such success abroad—albeit, they have proven rather trying for the American face and features—is shown with a crown of dead chink white chignon velvet, the fabric lying in soft folds and caught here and there with a tiny ermine tail. The high straight and really somewhat severe brim is, with the grain of the fur, turning upward, the lined with plisse chiffon, on which row upon row of soft yellowish valenciennoises of narrow width is sewn, making for an extremely becoming effect over the face. At the left side three plumes nod in military fashion, well in accord with the general severity of scheme and outline that distinguishes the entire chapeau.

### A Practical Wish.

At Atlantic City last week I heard a good one from a five-year-old girl. Her mother, seeing the new moon, took a quarter from her purse and wished on it. She then gave it to the child and told her to make a wish and it would come true. After the wish was made the mother asked what it was, and the child said: "I wished I could keep this quarter."—New York World.

### "Ay, There's the Rub!"

If the victim of unrequited love can only manage to hold out until the girl has been married nine or ten years and is trying to raise a family and do her own housework, he is almost sure to be able to get over it.—Chicago Record-Herald.

#### SOFT, GLOSSY HAIR.

It Can Only Be Had Where There Is No Dandruff.

Any man or woman who wants soft, glossy hair must be free of dandruff, which causes falling hair. Since it has become known that dandruff is a germ disease, the old hair preparations that were mostly scalp irritants, have been abandoned, and the public, barbers and doctors, included, have taken to using Newbro's Herpicide, the only hair preparation that kills the dandruff germ.

E. Dodd, Dickinson, N. D., says: "Herpicide not only cleanses the scalp from dandruff and prevents the scalp falling out, but promotes a new growth. Herpicide—keeps my hair very glossy. Sold by leading druggists. Send 10c in stamps for sample to The Herpicide Co., Detroit, Mich."

## Electric Decorative Outfits

Consist of a string of many colored miniature electric lights all strung up ready to hang on a Christmas tree or in a show window.

By the use of these the window trimmer can add much to the appearance of the windows, and thereby attract trade to your store.

On the Christmas tree they eliminate the danger of fire and of tallow dripping on the carpet.

These outfits can be used on other occasions, such as dinners, receptions, parties, etc., the year 'round. Anyone can connect them wherever there is a lamp socket.

## WANTED TO BORROW MONEY ON A WATCH

Well Appearing Strangers, Purporting To Be Railroad Men, Sought Loan from Jewelers.

A young man of rather good appearance and accompanied by two companions of equally favorable looks was in the city yesterday seeking to borrow five dollars on a watch. He purported to be a railroad man from Milwaukee, who had come out here unexpectedly on an errand and was without funds. He said he needed enough to buy supper for himself and two others of the crew and sought to leave his watch at a local jewelry store as security for the loan. The request was not granted and today the jeweler is congratulating himself for there were no extras crews here from Milwaukee on either road yesterday. The merchant of whom the money was asked is satisfied that the watch was stolen. The identity of the trio is unknown.

## M'GREGOR CASE SETTLED TODAY

JUDGE DUNWIDDIE GRANTS DIVORCE THIS AFTERNOON.

## IS SETTLED BY STIPULATION

McGregor Withdraws His Counter Complaint Upon Equitable Division of Property.

The case of Lola C. McGregor against W. D. McGregor, which promised to be an event of some interest in the circuit court this term, is settled. The plaintiff charged the defendant with having used cruel and inhuman treatment toward her, and particularly on July 26, last. In addition to beginning the action for divorce, the plaintiff caused the defendant's arrest in the municipal court of this county, where he was tried for alleged assault and battery upon her, the case being heard by Judge Field and a jury of six. The jury disagreed, five of the members voting for acquittal of the defendant. The defendant admitted kicking the plaintiff July 26, last, but justified his conduct on the ground that she had called him, in the presence of their children and the hired man, an illegitimate child, and stated that his mother was unchaste. The majority of the jury evidently thought this conduct on the part of the plaintiff amounted to a justification. The trial of this action in the municipal court aroused considerable interest, and the court-room was crowded during its progress. Pierce & Fisher and H. L. Maxfield represented Mrs. McGregor and Thos. S. Nolan defended Mr. McGregor. Mr. McGregor answered the complaint for divorce, justifying his alleged cruel and inhuman treatment of the plaintiff, as he did in the municipal court, and as a counter-claim charged the plaintiff with adultery. More or less of an effort was made by the friends of the parties to bring about a settlement, but for a time these efforts proved futile. The defendant was willing that the plaintiff should have a divorce, but he opposed to giving her all the property. Then the interference of members of the plaintiff's family impeded an amicable adjustment for a time. Finally a basis of settlement was reached, it being agreed that the plaintiff should have the homestead, the household furniture, a cow and a horse, and some other articles of personal property, and the defendant to eighty acres of land and the balance of the personal property. In addition, he is to pay five dollars a week toward the support of the four children. He withdrew his answer, so that the plaintiff might secure a divorce without any opposition. Judge Dunwiddie heard the evidence of the

plaintiff this afternoon. There was no excitement, the proceedings being very humdrum. The attorneys for both parties appeared, and stated to the judge the agreement which had been reached, subject to his ratification. After due consideration he decided the arrangement to be an equitable one and ratified it. He also granted the plaintiff a decree of divorce, embodying in the judgment the substance of the agreement. And the parties went out from the court, taking their respective ways.
